City Office

Re: Clean-Up Day

In an effort to standardize our city cleanup days, we have assembled a list of acceptable items. Clean-up items include furniture, household items, small amounts of wood, and carpet cut into 6 foot or shorter lengths and bundled in 40 lb or lighter bundles, light metal objects such as grills, and other miscellaneous items. If you have a question on a specific item, please give us a call at 712-472-2493.

Items not allowed for clean-up days include all items banned from the Landfill. This includes all appliances, electronics, tires, chemicals, yard waste, car parts, concrete, scrap metal, fluorescent light bulbs or their ballasts etc... Each city will make provisions for such items. Demolition and remodeling debris is also not considered clean up and should have special arrangements made for.

Clean day is intended for residential customers at their place of residence only. Commercial accounts are not included. No dumping from outside the city limits or from any other locations will be allowed. No construction or demolition material. Cleanup days are not meant for house remodels or cleaning out of homes. Town & Country will not pick up excessive piles. No loose cardboard will be accepted; please place this in your recycling.

Town & Country will continue to provide the truck and driver for cleanup days. The cities will be responsible for providing help for loading cleanup day materials as needed, and the landfill charges to dispose of these materials. Special arrangements will need to be approved prior to the scheduled cleanup day.

Please make this available to all residents.

If you have any questions, feel free to give me a call at 712-472-2493.

Thank You,

Town & Country Disposal
